

FACCM Negotiates Lower Cost Services for Members with Veracity Payment Solutions!

As individuals dedicated to providing best-in-class care for children, your number one focus is quality. However, as business owners, managing the costs of doing business, maintaining your revenue stream and adding dollars to your bottom line are essential elements that you can't afford to ignore.

That's why FACCM has partnered with Veracity Payment Solutions, a leader in electronic payment processing for Child Care Providers. Veracity understands that the "business" aspects of running your child care operations should be simple and affordable, letting you focus on your number one goal, the quality of care you provide to children.

What You Should Know

VISA®, MasterCard® and Discover® want to improve a greater acceptance of their card brands in Early Learning Centers across America. As a result, they have introduced an incentive rate or "emerging market rate" for early learning centers.

This rate is typically a cost factor for banks and processors and is often not passed along to the early learning center providers. That's why FACCM has negotiated aggressive acquiring fees for their members with Veracity. Members also receive a no obligation rate review of their current electronic payment processing.

Why Veracity

With decades of executive-level Industry experience, Veracity Payment Solutions offers a refreshingly new approach to traditional and virtual payments, making the acceptance of electronic payments easy and affordable for child care providers.

Veracity's product suite of innovative, low-cost payment options makes it simple for you to accept payments from your parents. The faster your receivables are processed, the sooner you can reinvest that money back into your business.
